

Transforming Water into Life Enhancing Energized Water

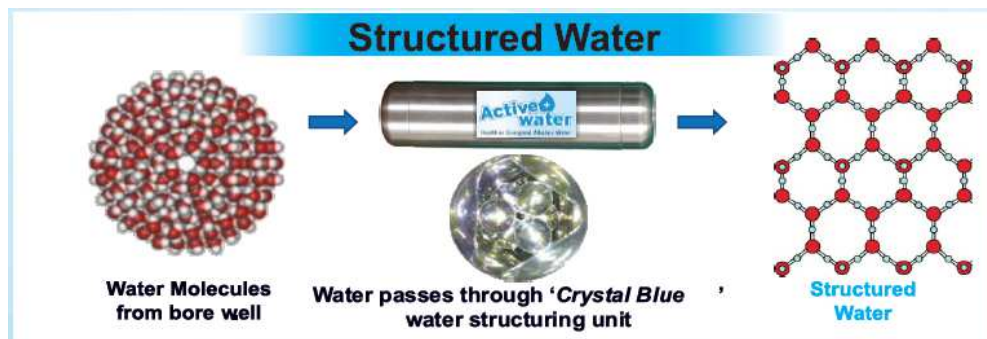

Transforming Borewell Water into Life-Enhancing Energized Water benefitting People, Plants, Animals and Soil Domestic Units for Healthy, Balanced & Natural Empowering Water

Active+Water Structured Water Unit through its powerful vibrations and vortex formations can make all bodily functions perform at an increased level. It also enhances the energy of the body.

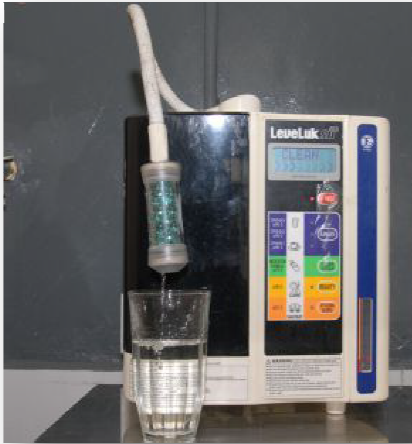

Makes People HEALTHY

- **Increases the oxygen content in blood**
- **Assists the immune system response**
- **Increases hydration on an intra-and extra-cellular level**
- **Turns tap water into natural spring water**
- **Erases the negative water memory before you ingest it**
- **Surface tension of water is reduced from 58 mN/m to 48.3 mN/m**

- Flowing mountain water is known to be the purest water and carries more nutrients
- Water is conditioned by the vortexes formed along the path
- Our structured water unit creates a similar effect on water
- Our Vortex technology revitalizes natural electromagnetic properties of water to convert normal water into structured water
- Bulk water is organized into hexagonal clusters, thereby reducing surface tension of water
- Structured water reduces the surface tension where salts are broken down into insignificant nanoparticles, due to which the salts lose their adhesive properties
- Richer oxygen content in the structured water prevents formation of carbonate and silicates in the pipelines

Active⁺Water Structured Water Units can be installed at our houses, gardens, farms, fields for more benefits

Benefits when installed before RO unit

- Structured water when fed through the RO, it prevents regular blockages in membrane resulting in higher flow and increased life of RO membrane
- Periodical chemical backwash can be reduced by over 50%
- Rejection water quantity can be reduced by over 10% - giving everyone a chance to contribute their share to nature
- Consequently, the consumption of power will also see a reduction

Benefits for Humans

- Reduces scaling / algae formation
- Reduction in time taken to clean pools
- Reduction in overall maintenance cost
- Maximizes hydration
- Boosts immune system
- Aids digestive system
- Softens hair and skin
- Reduces hair fall
- Reduces soap consumption

Benefits in General

- Reduces scaling everywhere
- Removes odour, e.g. chlorine odour from water source
- Reduces detergent consumption in washing machine
- Reduces clogging in taps / drips / sprinklers
- Direct connection to bore well
- Quality and time taken for cooking improved
- Every drop of water is Energized

Benefits for Plumbing

- Reduces Hard Water deposits
- Appliances and plumbing parts last longer
- Dissolves calcium and iron deposits in plumbing lines
- Minimal maintenance
- No moving parts or filters to replace

Benefits for Swimming Pools

- Water feels lighter and cleaner
- No skin / eye irritation
- Very refreshing
- Reduces chlorine odour
- Reduces scaling / algae formation
- Reduction in time taken to clean pools
- Reduction in overall maintenance cost

Benefits for Construction

- Bore water output line can be used to feed water for curing
- Using RO treated water can be avoided
- Reduction in the quantity of water used for curing can be seen

Compressive strength of cement concrete cubes

Testing of concrete tubes for 7 days compression strength

Normal water	Structured water
Average Compressive Strength (N/mm ²)	Average Compressive Strength (N/mm ²)
15.98	22.02

Concrete Block strength is higher by over 35% after 7 days

Testing of concrete tubes for 28 days compression strength

Normal water	Structured water
Average Compressive Strength (N/mm ²)	Average Compressive Strength (N/mm ²)
24.82	30.22

Concrete Block strength is higher by over 21% after 28 days

* Tests were conducted at Swastik Civil Engineering Labs, Mysuru

Where & How to install ?

Active+Water Structured Water Unit has been designed keeping in mind ease of installation. It is a very simple installation which requires no special skill. Any certified plumber will be able to do the installation.

Customized Home Filter

RO+UV+UF+TDS CONTROL+STRUCTURED+ALKALINE

- In built structured water unit
- Vortex technology revitalizes natural electro-magnetic properties of water
- Bulk water is organized into hexagonal clusters, thereby reducing surface tension of water
- Maximizes hydration
- Softens hair and skin
- Boosts immune system
- Reduces hair fall
- Aids digestive system
- Reduces soap consumption
- Customization of purification technologies for water purifiers depending on TDS of input water
- Providing ideal drinking water based on WHO standards
- Unique micro clustering of water for enhanced absorption into body
- Providing alkaline water to maintain healthy body pH

Active+
